

# CJC™ Filter Insert L04R

for lube oil on 4-stroke diesel engines operating on RESIDUAL fuels

## CJC™ Product Sheet

### APPLICATION

The *genuine* CJC™ Filter Insert L04R is ideal for filtration of SAE30 and SAE40 lubricating oil on 4-stroke trunk diesel engines running on residual fuels.

Applicable for engines operating on:

- Low Sulphur Fuel Oil (LSFO)
- High Sulphur Fuel Oil (HSFO)

### FILTER INSERT

The CJC™ Filter Insert L04R is designed for cleaning of crankcase lubricant for medium speed 4-stroke diesel engines operated on residual fuel.

The structure and composition of the CJC™ Filter Insert L04R facilitates large dirt holding capacity, removing:

- combustion contaminants
- wear particles
- oil degradation products
- asphaltenes
- water

Comprehensive field trials have confirmed the capability to maintain the oil cleanliness and even extend service life of the lube oil.

### COMPONENTS

The CJC™ Filter Insert L04R consists of 100% renewable resources, and comply with the objectives of DIN EN ISO 14001: 2015 "Environmental Management Systems" and the Recycling Management Act.

### IDENTIFICATION

To order the CJC™ Filter Insert L04R please use:

**Article No:**  
L04R PA5602311

### SPECIFICATIONS & CAPACITIES

#### CJC™ Filter Insert L04R

Nominal service life	MWh/ per insert	> 1100
Dirt holding capacity	kg/lb	> 16 / > 35
Water absorption potential	Ltr#gal	3 / 0.8
Diameter	cm/inch	27 / 10.6
Height	cm/inch	54 / 21.2

#### APPLICABLE ONLY WITH:

CJC™ Marine Lube Oil Filter for 4-stroke medium & high speed trunk diesel engines

CJC™ Marine Lube Oil Puifier 27 for 2- & 4-stroke diesel engines

CJC™ Marine Lube Oil Puifier 427 for 2- & 4-stroke diesel engines
