

Filter Insert L04D

for lube oil on 4-stroke diesel engines operating on DISTILLATE fuels

Product Sheet

APPLICATION

The *genuine* CJC® Filter Insert L04D is ideal for filtration of SAE30 and SAE40 lubricating oil on 4-stroke trunk diesel engines running on distillate fuels.

Applicable for engines operating on:

- Marine Gas Oil (MGO)
- Marine Diesel Oil (MDO)

FILTER INSERT

The CJC® Filter Insert L04D is designed for cleaning of conventional crankcase lubricant on 4-stroke diesel engines burning blended or distillate fuels.

The CJC® Filter Insert L04D has well balanced dirt holding capacity and high filtration efficiency for optimum control of the contamination level, removing:

- combustion contaminants
- wear particles
- oil degradation products
- asphaltenes
- water

Comprehensive field experience has proved very long insert service life as well as extended lube oil service life.

COMPONENTS

The CJC® Filter Insert L04D consists of 100% renewable resources, and comply with the objectives of DIN EN ISO 14001: 2015 "Environmental Management Systems" and the Recycling Management Act.

SPECIFICATIONS & CAPACITIES

CJC® Filter Insert L04D

Nominal service life	MWh/	1500
Diameter	cm/inch	27 / 10.6
Height	cm/inch	27 / 10.6

APPLICABLE ONLY WITH:

CJC® Marine Lube Oil Filter for 4-stroke medium & high speed trunk diesel engines

CJC® Marine Lube Oil Purifier 27 for 2- & 4-stroke diesel engines

CJC® Marine Lube Oil Purifier 427 for 2- & 4-stroke diesel engines
