Etanorm / Etanorm R – Standardised Water Pumps

- High energy efficiency**
 Optimised and tested hydraulic system of high efficiency. As a standard, the impellers are trimmed to the operating point.
- Ground-breaking features for saving energy**
 Equipped with PumpDrive for variable-speed operation. When used in combination with the KSB SuPremE® motor, the pump achieves the efficiency level IE4 to IEC/CD 60034-30 Ed. 2 already today.
- Operating reliability**
 Good suction performance for low vibration levels and very smooth running.
- Versatile**
 Great choice of materials for many applications available as a standard.
- Diversity of variants**
 Additional sizes for small flow rates extend the already diverse range of selection charts.
- Service-friendly**
 Fast delivery of new pumps and spare parts. Easier to assemble and dismantle thanks to the larger seal chamber and forcing screws between the casing cover and bearing bracket.
